THE OPERA,-The Rose of Tyrol was played last night at the Atheneum before a large and gratified audience. As an illustration of rural scenes, songe and sportiveness among the prople of a wild mountainous region, it was very beautiful as well as amusing. Miss Richings was as usual the "star" of the evening. We do not pretend to be an adept in Opera criticism. and shall not attempt to weigh accurately the merits of the several performers; but as every body in the audience appeared to be pleased, and as the plaudits were frequent and enthusiactic, we conclude that the entire performance was first rate, and such as is suited to the pop-

nlar ear and toste. This evening the Daughter of the Regiment will be performed at the Atheneum, for the second and last time, by the Richings Opera Troupe. Those who desire to see and hear Miss Richings in this popular Opera, in which she is admitted on all hands to excel, should not lose this opportunity.

To morrow night is set apart for Miss Richings' benefit.

Morning and Noon Dispatches.

Interesting from Virginia WASHINGTON, Dec. 1.—Information is rectived from the Army of the Potomac up to Monday noon. The train captured on the plankroad on Friday is said to have contained a small quantity of ammunitien, which

have contained a small quantity of ammunitien, which the rebels exploded.

In relation to affairs in front on Baiurday it is stated that at daylight our army lay across the Fredericksburg and Grange turppike at Robertson's tavorn, about 12 miles from Grange Courthouse. The rebel lines were light and gradually pushed back by our skirmishers for one mile and a half over the Mine run, near Verdiezzville. On both sides of the river is an open space on the edge of the woods west of the run. The enemy was in line of battle on both sides of the road, with their batteries entrenched. The slope from there to the woods is studded with rifle pits, from which the sharpshooters fixed scattering ahots.

the woods is studded with rifle pits, from which the sharpshooters fired scattering shots.

About 1 P. M. the clouds broke and the rain cessed, but the roads were simost in an impassable condition. One of our batteries fired a few shots, to which the rebels replied with great spirit for half an hour. About sunset several guns were fired from our lines, but failed to draw the enemy's fire.

A few additional particulars are furnished of the energement on Friday, namely:

A few southern of Friday, namely:

The number of prisoners taken by the 3d corps has been greatly exaggerated. Only sixty have yet reported to the Provost Marsial. ed to the Provest Marshal.

Among the wounded are Col. McClellan and Col.
Higgins of the 86th Pennsylvania regiment, and two

Among the wounces are the state and the Higgins of the Sith Pennylyania regiment, and two Captains, names unknown.

The medical director of our corps estimates our loss at three hundred and twenty-five wounded and about one hundred killed.

The enemy retreated from the front of the 3d corps during the night, leaving their dead and wounded on the field. Uwing to the enemy's change of position, it became necessary for us to leave them there. Their number greatly exceeds ours.

A note dated Sunday says: Yesterday closed clear, with the two armies lying in line on opposite sides of Mine Bun valley. Upon examination it was found that the ground on the sides of the run, excepting where it is creased by the turnpike, was impassable by our troops, owing to the boggy and swampy condition of the ground. All was quiet in front on Bunday.

Monday morning at 8 o'clock our batteries, which can be placed in position to bear upon the rebel works, were ordered to open.

New York, Dec. 2.—The Tribune's Army of the Po tomac dispatch states that the rebel prisoners captured during the battle stated that the enemy knew several days previously the exact time our army would cross the Bapidan.

the Rapidan.

On learning trustworthy details of the engagement of the 3d corps, the whole aspect of the shair, instead of being disastrons, exhibits success on one part in repulsing true in succession the ranks of the enemy, with a less to them of at least seven or eight hundred

in killed and wounded.

Sunday, Nov. 29, 10:15 A. M.—The rebels this morning remain in their works across the run and preparation is actively being made by Gen. Meade for a grand assault. The 24 corps moved from the center to the left of the 5th, supplying vacancies on both lides of the

pike.

A great battle will probably be fought to morrow.—
Sunday morning breaks with cloudy sky and a cold, raw
Enstwind. Our forces are again changing position to
meet the wiles of the enemy. Our engineers, under
cover of the darkness last night, constructed bridges
over Mine Rum brook, and our artillery protects them
now. The enemy also e instructed a considerable line
of carthworks, and have seven bears guns in position
in full view. Thus stand matters up to ten and twelve
octock.

The 5th corps, which was a reserve resterday, moved
up to the front and has taken place, while Gen. Warren
swang around to the left to execute an important movemeent.

Now (neon) the expectation is that a grand buttle will open about three this alternoon.

When the mea eager with the above left the front Sunday afternoon, a flank movement was being executed by the 2d corps. Gen. Warren, which would, it was thought, bring on a general engagement on Monday.—Yesterday morning heavy firing was heard.

From passengers by the train from Sappahannock station, we learn that firing continued duving the greater part of the forenoon of Monday.

A dispatch bearer from Gen. Meade is underatoed to have come in on a train with dispatches to 'he war Departments.

The Herald's Potomac army letter says: This morning at 8 o'olock a battle opened along our entire from, the neamy replying only from a few places. For an hour our artillery practice was incessent and heavy, then came a luli, which lasted until one o'clock. Our Infantry in the meantime was preparing for a grand assembly a strongly posted in his front, and Gen Meade has gone to the left. In the meantime operations cossed at the center and right.

Another Herald correspondent, who left the Army of the Potomac at 3 P. M. on Monday, say: Just before leaving the field, everything was in readiness for assault. I have little doubt that our forces now occupy the enemy's works on bire Run. My impression is that he

leaving the field everything was in readloses for assault. I have little doubt that our forces now occupy the enemy's works on Mire Run. My impression is that he had left the right before in the direction of Gordonaville, leaving only force enough to make a show in ear front. When I left an assault had been ordered to be made upon these works by infantry, with haymets, under cover of artillery fire. Camonading commenced before I left and continued some time without any reply from the enemy, and finally ceased entirely before I reached Ely Ford.

The Herald's Washington dispatch says: If, as reported to day, Gen. Meade has salien back upon Fredericksburg, as is most probable, the campaign in Virginia must be closed with the recent movements there.

The Herald's Rappahannees Station dispatch, dated 7P. M. Tuesday, says: Another Herald correspondent was captured by the rebels. Some 200 head of mules, cattle and sheep was captured from hiosby at Thoroughfare Gap last night, and brought to Bristoe, Station.

Siege guns were to be pinced in position yes erday, and it was expected that a batile would be fought to day. No firing heard, however, to-day.

A special to the World from Washington 1st, says: We have advices by a special messenger to an early hour this morning from the Army of the Potomac.

There was considerable skirmishing yesterday as usual but no general engagement was opened, Meade not attacking, while Lee seems to remain entirely on the defensive. It is evident the former is awaiting developments elsewhere.

ments elsewhere.
The rebel lines are several miles in front of Orang

Court House, directly to the east of that piges, and along the banks of Mill creek, not Mine run, which is several miles on this side, nearer Fredericksburg.

NEW YORK, Dec. 2.—Bight Aldermen elected yester-day—two Unionists and four Democrats; eight Police Justices elected—three Unionists and five Democrats Civil Justices elected—two Unionists and six Demo-crats. The above is the Tribune's classification.

CINCINNATI, Dec. 2.—A Louisville dispatch to the Commercial says: Fears are entertained of a raid on the Nathville Ballroad, as guerrillas in the State are concentrating. There was a collision elabteen miles south of Louisville yesterday. A number of care were destroyed, two persons killed and four badly hurt.

A special from Chattanooga says: In the battle of Ringgold the 7th Ohio suffared soverely, losing Colonel Creighton, Licut. Col. Grans in killed, and Adjutant Baker wounded. Only one commissioned officer scaped unhurt. The 76th Ohio a so suffered sewarely.

Prisoners still come in large numbers, and will foot up 7000. The mountains are full of Kentucky and Tonnessee describers trying to get home.

Gen. Bragg with his skeleton a ray is making his way. South.

The heads of a number of our soldiers killed in the Dilckamanga battle field, were found severed from the podies and stuck up on stumpe and pole.

A court-martial has convexed to this city for the trial of Gen. Broyman. Capt. Hurti was dismissed gesterday by orders from the War Department.

New York, Dec 2.—Fifteen hundred workmen have been discharged from the Broaktyn navy yard.

A Bestrort letter of the 28th to the Tribune states that a scouting party from Col. Higgle's regiment, while returning from a successful expedition to release about thirty negroes were set upon by bleed hounds, but the negroes fired on and killed the dogs.

The Times contains an important statement from Ges. Hitchoock, relative to the non exchange of prisoners, showing most conclusively that the rebels have deliberately lied, and many others seted in highly reprehensible and dishonorable manner.

LOCISVILLE, Dec. 3.—The related Nashville train arrived at five o'clock this morning. One soldier of the did this artillery, one of the 4th Tennessee lafantry, and one citizen were sortously wounded. The other manualties were slight.

New York, Doc. 2 .- The Tribune's Washington disaich says: The President's illness is varifold.

It is rumored that Gen. Hooker is to be placed at
he head of the Army of the Potemse again.

Last Night's Dispatches.

Troows Prom Virginia. The E. New York, Dec. 2.—The Washington correspondence of the Evening Post of the 1st, says: The courier employed by the newspapers came in from Mende's head quariers early this morning. He left the south side of the Baptidan yesterady morning, and no serious fighting had occurred up to that hour. It was not then believed that Meade would attack Lee before Turaday, and it was considered possible that no battle would be fought, as the army only carried rations for a very brist compaign. It will have to fight soon or fall back for fresh supplies. It is possible that when Essaio has inches the work he has undertaken he will fall back upon Fradericasburg, though nebthog is known on that point.

At five o clock this evening the Government had received muthing from the Raphina, and in official circles this fact is accepted as favorable rather than the contrary.

Rare Chance for Printers and Editors.

A FLOURISHING DEMOCRATIC NEWSPAPER, None of the wealthiest counties in Southern Ohio In one of the wealthiest counties in Southern Ohio is now offered for sale. The county is always reliably Democratic by a large majority, and the paper now offered for sale is the recognized (and the only) organ of the party in the county. The official patronage, alone, of the paper amounts to about \$2000 per annum, with a subscription list, job work and business advertising in proportion. The material of the office extensive and excellent. As the present proprietor is anxious to retire from the business of exerct of account of his health, the establishment will be disposed of at a great bargain to a good Democrat.
